PURE TEA—IN SEALED PACKAGES,
Direct from China and Japan.
DELIVERED at YOUR OWN DOOR, fresh from the GARDENS of the GROWTH.
Imported direct by
THE WELLS TEA CO.,
201 Fulton Street, N. Y.

The difficulty of getting pure Teas of really fine quality in the United States, has induced THE WELLS TEA CO., to ship their Teas in sealed packages direct from the gardens in which they are grown, and as a further guarantee of their being delivered in full and genuine state, they entrust the sale of them only to reliable Agents—the name of the nearest Agent to you is printed at the foot of this advertisement—so that the Teas pass through the hands of but few dealers, and will be delivered at your own door as fresh as when they left the gardens of China and Japan; the price also is printed on each package, so that no error can occur.
Every body buys Tea.
Every body wishes to buy it at first hands—the best qualities at the lowest prices.
Every body desires—when they find a Tea suitable to their tastes—to be certain of getting the same article always.
You can have all these advantages by buying of
THE WELLS TEA COMPANY,
Because they import their own teas, and sell them at wholesale prices—without the six or eight intermediate profits usually charged.
Because the quality is better at the price than is sold by any other house.
Because their long experience in China and Japan enables them to make better selections than ordinary dealers—and to import them with greater advantages.
Because they absolutely guarantee the quality of all their goods—and keep them to one invariable standard, so that you can always rely on them.
Because they do business for cash only—and therefore make no extra profit from good customers to cover losses by bad debts.
Because their agents are responsible and reliable men—who deliver Teas precisely as received from the Company.
Because having once tried these Teas, you will not need to go elsewhere hereafter.
WANTED—A Druggist, or other first-class merchant, in every town and city in the United States, to whom will be given the SOLE AGENCY for that locality.
Address, for terms and full particulars,
THE WELLS TEA CO.,

Rules of Nomination.

As Adopted by the Convention, Dec. 26, 1870.

I. The annual County Convention shall be held at the Court House in Bloomsburg, on the Second Tuesday of August, at one o'clock p. m., and the delegate Elections shall be held on the Saturday before, at the places of holding the general elections in the several election districts, between the hours of three and seven o'clock in the afternoon.

II. The representation of districts in County Convention shall be in proportion to the Democratic vote of each as cast at the most recent election for Governor, but the whole number of delegates shall not exceed seventy nor be less than fifty-four, and no district shall be allowed less than two nor more than four delegates.

III. Until the next election for Governor delegates shall be allowed to districts upon a ratio of sixty voters for a delegate, allowance being made for the largest fractions of a ratio.

IV. The Standing Committee shall, whenever necessary, make an apportionment of delegates to the several districts under these rules and publish it, with the rules as amended, in the Democratic newspapers of the county, at least two weeks before each annual convention.

V. Voters at Delegate Elections may give their votes to a smaller number of candidates than the whole number to be elected, in the manner provided in the fourth section of the Bloomsburg act of 4th of March, 1876.

VI. The delegate elections shall be by ballot and shall be held and conducted by a Judge and clerk, to be selected by the Democrats in attendance, and the said officers shall keep a list of voters and tally of votes counted, to be sealed by them to the Convention with their certificate of the result of the election.

VII. All cases of disputed seats in Convention shall be disposed of openly by a vote after hearing the respective claimants and their evidence.

VIII. All delegates must reside in the districts they represent. In case of an absent delegate he may depute another, if he fail to do so his colleagues in attendance may substitute for him. In other cases the Convention may fill up the representation from the citizens of the district in attendance.

IX. The voting in Conventions shall be open, and any two members may require the yeas and nays on any question pending.

X. Special Conventions may be called when necessary, by the Standing Committee, the proceedings of which shall conform to these rules.

XI. All county nominations and all appointments of conferees and of delegates to State Conventions, shall be made in County Conventions.

XII. The Standing Committee shall consist of one member from each election district, who shall be elected by the people at the delegate elections, who shall choose their own Chairman; and any five of them shall be a quorum, when called together by the Chairman.

XIII. No member of the Legislature shall be chosen by this county as a delegate to a State Convention during his term of office.

XIV. In Convention a majority of all the votes given shall be necessary to a nomination, and no person named shall be peremptorily struck from the list of candidates until after the fourth vote, when the lowest name shall be struck off and so on at each successive vote until a nomination shall be effected. Provided that in the case of a nomination of two candidates for the same office at the same time, it shall be necessary to a nomination that the candidate shall receive more than one third of the whole convention vote.

XV. All county nominations for officers to be elected by the people shall be made in and by the county conventions, except as herein otherwise provided.

XVI. Instructions shall be required upon nominations for all County offices except for Coroner, Surveyor and Auditors, and shall be allowed upon other nominations, and candidates shall receive Convention votes in proportion to their vote in the respective districts.

XVII. In cases where instructions are not required by the foregoing rule it shall be necessary to the giving of instructions that more than one-half the voters present at the election shall take part in the proceeding of voting therein.

XVIII. Votes of instructions for candidates shall be received at any Convention; and votes in violation of instructions shall be disallowed.

XIX. In case of a tie vote in convention made by instructions, the candidate who has received the highest popular vote shall be declared nominated:

Chapter III.
OF ELIGIBILITY.

I. Same as nineteen in old rules.
II. Same as twenty in old rules.
III. No person shall be eligible to a nomination by a Convention who has opposed the Democratic ticket at the next preceding election.
IV. Same as thirteen in old rules.

Chapter IV.
OF THE STANDING COMMITTEE.

I. Same as twelve in old rules.
II. Same as four in old rules.
III. In case of the death, declination or removal of any candidate put in nomination by the Convention before the election; a new nomination of a candidate shall be made by the Standing Committee called together for that purpose by a public notice, from among citizens eligible under these rules.
IV. If a State Convention shall happen at a session of the Court previous to the regular meeting of the County Nominating Convention; then and in that case the Standing Committee called together for that purpose, by public notice shall elect the representative delegates for the County and shall appoint senatorial conferees from among citizens eligible under these rules, to select senatorial delegates.
V. The chairman shall call a special meeting of the Standing Committee, upon request in writing of any five members; and in the call he shall state the business or purpose of the meeting, and no business shall be transacted other than that mentioned in the call.
VI. Special Conventions may be called when necessary, by the Standing Committee, the proceedings of which shall conform to these rules.

Chapter V.
OF THE RULES.

If These rules or any one or more of them may be altered, amended or rescinded at any regular convention by a vote of two-thirds of the whole number of delegates to the Convention.

Chapter I.
OF THE ELECTION OF DELEGATES.

I. Remains unchanged.
II. Remains unchanged.
III. Remains unchanged.
IV. The delegate elections shall be by ballot and shall be held and conducted by a Judge and clerk, to be selected by the Democrats in attendance, and the said officers shall preserve all questions of the right to vote, keep a list of voters and tally of votes counted, to be sent by them to the Convention with their certificate of the result of the election, which certificate shall be prima facie evidence of the persons therein named having a right to seats in the Convention.
V. All delegates must reside in the districts they represent; and in case any delegate shall be unable to attend he shall be allowed to depute another citizen of the district. But no other deputation or representation shall be allowed.
VI. Same as eighteen in old rules.
VII. Voters at delegate elections may cast as many votes as there are delegates to be elected and may cast them all for one delegate, or may divide them among the delegates as they see fit: And in the case of a tie vote between delegates, the question shall be decided by drawing lots:

Chapter V.
OF THE RULES.

If These rules or any one or more of them may be altered, amended or rescinded at any regular convention by a vote of two-thirds of the whole number of delegates to the Convention.

Poetical.

DRIFTING AWAY.

Drifting away from each other,
Silently drifting apart,
Nothing between but the world's cold screen,
Nothing to lose but a heart.

Only two lives dividing
More and more every day;
Only one soul from another soul
Steadily drifting away.

Only a man's heart striving
Bitterly hard with its doom;
Only a hand, tender and bland,
Slipping away in the gloom.

Nothing of doubt or wrong
Nothing that either can cure;
Nothing to shame, nothing to blame,
Nothing to do but endure.

The world cannot stand still,
Tides ebb, and women change;
Nothing here that is worth a tear,
One love less—nothing strange.

Drifting away from each other,
Steadily drifting apart—
No wrong to each that the world can reach.
Nothing lost but a heart.

THE OLD FRIENDS.

BY SARAH BOUDNEY.

Where are they scattered now,
The old, old friends?
One made her dwelling where the maples glow,
And mighty streams through solemn forests flow,
But never from the pine crowned land of snow
A message sends.

Some meet me oft amid
Life's common ways;
And then, perchance, a word or smile declares
That warm hearts throb beneath their load of cares;
For love grows on, like wheat among the tares,
Till harvest days.

"But some are fall'n asleep!"
The words are sweet!
Oh, friends at rest beneath the blessed sod,
My feet still tread the weary road ye trod,
Ere yet your loving song went back to God!
When shall we meet?

Oh, thou divinest Friend,
That I may know them in their garments white?
And see them with a new and clearer sight,
Mine old familiar friends—made fair and bright,
Like unto Thee!

What Has the House Done?

This is a fair question and deserves a fair answer. "Nothing," is the answer if you read the Republican papers. Worse than nothing, if you read some of the so-called independent journals, but the facts are the action of the House, while it has exposed unexpected and a hitherto unheard-of amount of corruption, has also laid the foundations for an immense saving in taxes. While the revenue has fallen off $11,000,000 in the estimates of the Secretary of the Treasury, the fact that there was a Democratic House, and the persistent efforts of this majority in the House to save money and taxes have resulted in making the income of the Government equal to its expenses, and paved the way for a far better result the coming fiscal year than the past. But we are asked to make specifications as to the retrenchment and reform policy, and conduct of the House and we give them with pleasure:

The present House of Representatives has done more real reform work during the past six months than all the Congresses for the past twenty years, and if it could have the support of the Senate it would make the present congress an immense blessing to the people. Just here now are some of the results of this good work in detail, which we condense from the Baltimore *Gazette*:

First, It has not elected a Speaker like Schuyler Colfax, who used his high office to enrich himself. It has not elected a Speaker like James G. Blaine, who used his position to influence legislation in favor of railroad subsidies; who acted as the agent of a fire-arms company; who sold rulings and legislation for so much cash down in the shape of railroad bonds.

Second, Since it met last December it has not been devising ways and means, day after day, to get money out of the Treasury. On the contrary, it has cut down the extravagant estimates of the departments, and if the Senate will pass its bills, has reduced the expenses of the Government nearly $40,000,000 per annum. Instead of making places for the creatures of the administration, it has abolished every office that was not absolutely necessary.

Third, It has not legislated a freedman's bank into existence and placed in the power of a lot of men to steal the savings of the poor colored men of the South, amounting to millions of dollars. On the contrary, it has taken the robbers and swindlers who did that infamous work by the throat, exposed their rascality and directed the officers of the Government to send their names before the grand juries.

Fourth, It has gone into President Grant's cabinet and dragged out of it one of his trusted advisers, who abused his high place, who robbed the dead veterans of the war, who aided in cheating the living soldiers on the plains, who demanded money for every appointment he made, and brought him to trial for his many crimes!

Fifth, It has shown how the funds of the so-called departments of justice have been used for the purpose of controlling elections in the South and in the North; how the President put his hand in the public Treasury and took out money to aid in his own re-election. It has exposed the villainy of Williams, the rascality of Davenport, and the general corruption of that entire branch of the public service.

Sixth, It has stretched its hand across the water to London and saved the honor of the country by collaring the minister and embassador extraordinary, who was using his influence as our representative to "bull" a worthless mining stock and rob the English people.

Seventh, It has shattered the District of Columbia Ring into a thousand atoms; indicted Babcock for complicity with safe burglars; made Harrington a fugitive from justice, and exposed the rottenness and corruption of the present Commissioners.

Eighth, It has instituted a rigid scrutiny into the management of the Navy Department, exposed the corrupt operations of the Cattels and other plunderers.

Ninth, It has laid bare the straw-bid system in the Post Office Department, and proved that the country has been annually robbed of hundreds of thousands of dollars for carrying letters which were never written over routes that never had an existence.

Tenth, It has exposed the infamies of the Indian Ring, shown how the Indians are driven on the war path that army contractors may be enriched and the Treasury bled.

Eleventh, It has substituted silver for the wretched fractional currency as a step toward specie payments; matured a tariff bill which, if the Senate would agree to it, would do more to start our idle mills and furnaces and factories, and restore prosperity to all classes than any measure which could be devised. It has taken the control of our Indian affairs out of the hands of the thieves who had charge of them so long and placed them where they belong, in the War Department. It has reorganized the army and closed a thousand avenues of fraud and corruption in every department.

In 1871 Samuel J. Tilden began his brilliant and successful campaign against the Tweed ring which has ended in stripping them of their spoils and sending them to prison or exile. In his speech at Cooper Institute in November of that year he made the following pledge to the people of New York: "By the blessing of God according to the strength that is given to me, if you will not grow weary and faint, and falter on the way, I will stand by your side until not only civil government shall be reformed in the city of New York, but until the State of New York shall once more have a pure and irreproachable judiciary, and until the example of this great State shall be set up to be followed by all the other States." The people of New York did stand by Samuel J. Tilden and he nobly redeemed the pledges of his speech in the overthrow of the gigantic rings that ruled the City and State. Now this able and intrepid champion of the people against the plunderers is invited to the performance of a far larger and more difficult task, the purgation of the National Government from the corruption that pollutes it. He is under the same pledges to the people of the country which he gave to the people of New York, and sustained by the ballots of his fellow-citizens he will redeem them. —*Patriot.*

GENERAL HOOKER ON TILDEN'S NOMINATION.—Governor Tilden has received the following letter of congratulation from Gen. Joseph Hooker.

"I cannot refrain from offering you my sincere congratulations on your nomination to the exalted office of President of the United States. As a quiet observer of the political events of the nation I know of no one in my day who has adorded me so much satisfaction, and sincerely hope and believe that the wisdom shown in the selection at St Louis will be fully ratified by the great mass of the people in November next. We require reforms in politics, religion and morals, and I am convinced that we will fare generously at your hands. The whole government of the nation is corrupt—desperately corrupt—and the honor and glory of applying the antidote I am convinced will belong to you. If the fact of your nomination does not enhance the material value of the nation, I am sure your election will do it. Already I seem to breathe a new atmosphere, as is the case of every well-wisher of his country."

HEAVY CARRIAGE HIRE.—The new Secretary of War, in reply to a letter from Mr. Clymer, the chairman of the War Expenditure Committee, says that it cost the government $115,000 for the hire of carriage for the Secretary of War from the beginning of this administration to Belknap's resignation on March 2d last. During the seven years Belknap was Secretary the carriage was probaly never used a dozen times for his convenience or in despatching public business. It served the same purpose as Attorney General Williams' landaulet did. It enabled the Belknap family to ride out in style every day and attend the numerous receptions and parties given during the season. But why the government should be taxed $16,000 for this luxury, the War Expenditure Committee is going to find out.

After lavishing upon greedy monopolies the richest portion of the national domain the Republicans in their Cincinnati convention again solemnly resolve that they are "opposed to any further grants of public lands to corporations and monopolies." Now when the lands have all gone into possession of the monopolists through the legislation of this party, could there be a greater mockery of the people than this resolution? That nothing may be wanting to the arrant hypocrisy of the thing they put upon this platform Hayes and Wheeler, who, when in Congress, never lost an opportunity to vote for a measure that robbed the people of their lands.—*Patriot.*

The St. Louis *Republican* records this as its estimate of the difference in the candidates: "If Hayes is a man of no faults, Tilden is a man of great merits. If Hayes would do no harm, Tilden would do a great deal of good. If Hayes is a personally honest man, Tilden is more—he is the enemy of dishonest men. Hayes is a good Republican, who can be implicitly relied on to do whatever the party leaders require, and leave undone whatever they disapprove. Tilden is a wilful Democrat, who will do right whether the party approves it or not. These are the two men that the country must choose between."

One of the Supreme Court Judges in South Carolina suggests the following plan to prevent drunkenness: Allow every person to sell as much liquor as he wishes without tax or license; but require those who drink to apply for a license, and to give notice of such application by publishing it for one month in the official newspaper of the city or county, and then, if there be no objection, to enter into a bond

MOLLY MAGUIRES.

James Roarty, James Carroll, James Boyle and Hugh McGehan were convicted of murder in the first degree, at Pottsville on the 22d inst, for killing Policeman Yost at Tamaqua a year ago. Roarty, fearing that men of his division might be recognized, called on Alex Campbell, body-master at Storm Hill, to furnish the assassins, and it was arranged between them that men from Storm Hill should kill Yost if in return the Tamaqua men would supply men to kill John P Jones, a mine boss, who had discharged and blacklisted two Mollies belonging to Campbell's division.

HISTORY OF THE CRIME

Roarty sent his pistol to do the work with: Campbell sent McGehan and Boyle to use the pistol; Carroll received and instructed the murderers and sent them to the spot which had been chosen as the best place to do the deed, with Duffy as guide, who turned them over to Kerrigan, who was waiting to pilot them home by an indirect and little-traveled road. McGehan and Boyle, crouching in the shade of a tree, within a few feet of the lamp which it was Yost's duty to extinguish, waited for their victim, and, as he was standing on the ladder, with his arm stretched out to reach the light, both shot into him, one bullet from McGehan's pistol penetrating the lung of Yost and causing his death within a few hours. McGehan and Boyle, under guidance of Kerrigan, reached their homes, meeting only one person, who recognized and spoke with them. All the parties congratulated themselves on the neatness of their job, little dreaming that the boastful tales which they had told their friend and brother Mollie, McParlen, the detective, were at once revealed to Mr Gowen, and that from the 1st of August, 1875, until they were arrested last February, justice was only waiting for the full ripeness of events to pounce upon them and call them to an account for the terrible deed they had done. To-day every person connected with that murder except Thomas Duffy occupy condemned cells—Campell at Mauch Chunk, for he was tried and convicted there for the murder of John P. Jones. Duffy's conviction is a mere question of time, and before another year rolls around all of these men will have gone to their last account.

SECRETARY ROBESON.

The congressional committee on naval affairs have been investigating the administration of that department by Secretary Geo. M. Robeson, and have brought to light some damaging testimony. The committee has not yet reported, and it is understood that there will be a minority report, as the Republican members would not dare to let the case go without an attempt to whitewash Robeson. The following resolution will be presented with the report:

Resolved, That these legal questions, together with all the proofs taken by this committee, be referred to the committee on the judiciary, with power to hear additional testimony and argument, if they see fit; to examine and report whether such violations of the law as are referred to herein constitute an impeachable offense under the Constitution, and if so, then they shall report articles of impeachment against George M. Robeson, Secretary of the Navy; but if they shal find that under existing laws such acts and doings of the said Secretary are not impeachable or otherwise punishable, then they shall report what additional legislation, in their opinion, is necessary to make said laws sufficiently punitive to protect the public service.

Just at this juncture of affairs, as we are entering upon a Presidential campaign, what a sight would be presented to the American people by the impeachment of the Cabinet officers of Grant's administration! Can it be that Ulysses the Gift-taker has remained unspotted in character while surrounded by such men as he has made his confidential advisers? The ears of the Jackass are beginning to protrude from under the Lion's skin.

THE BELKNAP TRIAL.

The counsel for the defense have persistently striven to make the case a political one in every sense The argument is about closed, and the result will be known in a few days. On Wednesday Mr. Carpenter occupied the entire session of the Senate in an effort to make it appear that his client was simply a victim of political persecution. In other words, that when a Cabinet officer is caught in corruption and bribery, and lending his high office to avarice, and brought to trial to answer to the country, this is political persecution. There was a time when the Senate of the United States would scarcely have listened to such a paltry plea. But now, with a Republican majority in the Senate, we are anxious to see if they have sufficient backbone to convict a guilty Cabinet officer at the very outset of the Presidential campaign.

FRED SAFE.—Lieut. Fred Grant belongs to the unfortunate Seventh Cavalry Regiment which encountered Sitting Bull and fared so badly under Custer, at Big Horn river, on the 25th of June. A Washington dispatch says:

"It is not true, as has been generally supposed, that Lieut. Fred Grant, an officer of the Seventh Cavalry, was with his command in the Indian fight. Lieut. Fred is in Washington, a resident of the Executive Mansion lamenting that his father's services during the war do not protect him from the censure of the independent press. Three of Fred's classmates already fill soldiers' graves, having fallen by bullets shot from the latest improved arms, furnished by the peace commission, and the President's oldest son has no desire to share such glory for years to come."

The fast mail trains have been taken off, and some of our exchanges are attempting to throw the blame on the Democratic House of Congress, for failing to make an appropriation to meet expenses. Other things have been kept moving in spite of the alleged want of money, but the managers of the machines, hoping to arouse the feelings of the people by delaying their mails a few hours, have stopped these fast trains, and now cry out against Democratic reform. The attempt is too thin, and will be easily seen through by all intelligent men

The carpet bag Governors who started the outrage mill at Hamburg, down south and immediately rushed to Washington to ask for troops in order to control the coming election were politely requested by the Secretary of War to go home and attend to their business. The pretense was so slim that even Don Cameron would not countenance it.

The Financial Plank in the Republican Platform.

Editors Columbian:—When I read the 4th Resolution (the Financial Plank) in the Cincinnati Platform, the impression was like the memory of other days. It seemed to me that I had either read or heard something like that before. It turns out that this Resolution is, in effect, copied from a speech delivered by Gov. Thomas H. Hendricks—now the Democratic candidate for Vice President Indianapolis, Ind, Sept 14, 1876. That the readers may see the remarkable coincidence, I herewith furnish you with both documents, in parallel columns:

REPUBLICAN PLATFORM SPEECH.

IV. By the first act of Congress signed by President Grant, the National Government assumed to remove any doubts of its purpose to discharge all just obligations to public creditors, and solemnly pledged its faith to make provision at the earliest practical period for the redemption of the United States notes in coin. Commercial prosperity, public morals, and National credit demand that this promise be fulfilled by a continuous and steady progress to specie payment.

EXTRACT FROM HENDRICKS SPEECH.

By the first act which President Grant signed in 1869, the faith and honor of the country are pledged to the payment [of the interest bearing obligations of the United States] in gold: *** What is the effect of the act of 1869, pledging payment in gold. Upon that question I have no doubts Congress passed it, and the President approved and signed it. They had the constitutional power. *** Their acts within the sphere of their power bind the people. Millions of the bonds have been sold, and the purchasers must be paid in accordance with the pledge given. *** A lower standard cannot be set up for the Government than that which measures the right and liabilities of individuals

It is conceded that Gov. Tilden is sound on the financial question, and since the Republicans have so emphatically endorsed the soundness of Gov. Hendricks, by adopting his speech, as the financial plank in their platform, it would seem to place it beyond their power to raise any issue on this question

O.

CONYNGHAM, Pa., July 22nd, 1876.

Ed's. Columbian:—I am informed that a Congressional Convention for that portion of Luzerne county embraced in the Eleventh District has been called to meet on the 29th of July (Friday), at some point to me unknown, for the purpose of selecting Conferees to nominate a candidate for Congress. What I desire to know is by what authority that Convention is called. I am also told that our legislative conference for this District is to meet the day following. Now how can the delegates attend both, as there are 85 miles distance between the two points?

D.

The above communication, we think, should properly have been addressed to the Chairman of the Luzerne Committee, or to a Luzerne Democratic paper. We are ignorant of the Luzerne rules governing such cases, and we cannot tell what authority calls a congressional convention for the Luzerne portion of the Eleventh District.

As a matter of general information we can only say that our Congressional District takes from Luzerne the towhships of Nescopec, Black Creek, Sugarloaf, Butler, Hazle, Foster, Bear Creek, Buck, Roaring Brook, Salem, Hollenback (now, we believe, divided into two districts), Huntingdon, Fairmount, Spring Brook, and that part of the City of Scranton south of Roaring Brook creek and east of Lackawanna river, and the boroughs of Dunmore, New Columbus, Goldsboro', White Haven, Jeddo, and Hazleton.

Of these townships and boroughs New Columbus, Fairmount, Huntingdon and Salem are in the Second Legislative District.

White Haven and Hollenback are in the Third District.

Jeddo, Hazleton, Black Creek, Butler, Foster, Hazle, Nescopec and Sugarloaf are in the Fourth District.

Goldsboro, Bear Creek, Buck, and Spring Brook are in the Fifth District.

The undefined portions of the 11th and 12th wards of Scranton are in the Sixth District.

Dunmore and Roaring Brook are in the Eighth District.

Now if these various townships and boroughs can send the proper delegates at the proper time to nominate two candidates for Congress, and at the same time meet in two senatorial, one county, and eight legislative conferences, and do the thing clean and square, the people, about election time, will want to know how they did it.

The Indian War.

SHERIDAN TO TAKE THE FIELD.

WASHINGTON, July 23.—The last of the new detachments sent to reinforce our troops engaged in fighting the Sioux Indians are now on the way westward. Gen. Sherman, by the judicious distribution of the the troops, which were stationed on the Atlantic seaboard, has been able, notwithstanding the present numerical weakness of our army, to respond promptly to the calls of Gen. Sheridan for reinforcements, and no volunteers will be needed to push the Indian war to a successful conclusion. Gen. Sheridan reports from Chicago that everything is making satisfactory progress, and that active operations will be resumed within a few weeks. It is officially reported here that as soon as the necessary preparations are made and the supplies forwarded, Lieutenant General Sheridan will take the field and personally superintend the movements of troops, as he did in his successful campaign of 1868 and 1869 against the Cheyennes, Kiowas, Arrapahoes, and Comanches between the Platte and the Red river of the south. General Sherman will remain in Washington, directing the general movements and providing the necessary means to insure the success of the expedition. The plan of campaign which has been determined upon is to make a combined movement of three columns, with Fort Ellis as the base. Two of the columns will move directly against the Indians, and one against their villages. Gen. Sheridan will, according to the present plan, establish his head quarters in the field at some advantageous point on Goose Creek, about 40 miles northwest of Fort Phil. Kearney and near the scene of Gen. Crook's battle on the Rosebud on the 17th of June. The force of these three columns will amount in the aggregate to between 3000 and 4000 men. In speaking of the war Gen. Sherman says that it will be stubborn and bloody; that the Indian chieftains will naturally have the choice of position, and that in order to fight them it will be necessary to meet them whenever they offer battle, or whenever they can be caught.

The report that Sitting Bull, the leader of the hostile Sioux Indians, was killed in the Custer fight is still repeated among the Indians. It will make but little difference as General Sherman says there are twenty Chiefs, each of whom is capable of filling his place.

Gov. Hayes signed the bill increasing the fees and emoluments of Ohio officials $5,040,000 per annum in the aggregate. Such a man may be anxious for reform, but he gives us no promise of retrenchment.—*Cincinnati Enquirer.*

A STARTLING RUMOR.

Hon. F. B. Gowen, in his great speech to the Jury in the trial of Manley at Pottsville, used the following language in speaking of the Mollie Maguires:

"I have seen this organization wield a political power in the state which has controlled the election of a great commonwealth; I have received the information of meetings between some of the highest officers of the state, and the chief of the murderers, at which large sums of money were paid to secure the votes of this infernal association to turn the tide of a state election. God knows, never in the world was there a revelation as deep and as damning as that now laid open to the people of this commonwealth for the first time. * * *

"Then we could say to Pat Conry, commissioner of this county: The time has ceased when a governor of this state dare to pardon a Molly Maguire; you have had your last pardon."

Mr. Gowen, a gentleman whose ability and integrity are undoubted, and to whom the people of the coal regions are under great obligations for having freed them from the reign of terror caused by the atrocious crimes of this band of desperadoes, never speaks hastily or unwittingly. We may expect to hear more from him on the same subject hereafter.

A dispatch dated at Pottsville July 24th, gives us a little more information, and if there be any truth in the rumor it will occasion such a rattling among the dry bones as was never heard in this commonwealth. The following is the dispatch:

One of the Mollies imprisoned here made a confession to the authorities on Saturday. It is supposed that Michael Lawler is the "squealer," and that he has given a full and detailed account of the bargain made last fall by which the entire Mollie vote of this and Carbon county were secured for Governor Hartranft. Lawler and Jack Kehoe were the ambassadors of the Mollies to Harrisburg, and if Lawler has told all he knows about it there will be a story told which will make every decent citizen of this Commonwealth blush.

The *Mauch Chunk Democrat* asks the following pertinent question.

What does this mean? Is it true that Jack Kehoe, the leader of the Molly Maguires received about $1,100 from M. S. Quay, and several others in the order sums ranging from $500 upward to influence their votes against Judge Pershing last fall? Why did Gov. Hartranft pardon the Molly Maguire commissioner of Schuylkill county? Was that part of contract?" Since the late revelation of corruption and fraud in the Republican party we are ready to believe almost anything, but for the sake of the State of Pennsylvania, for the sake of the nation, and in the name of of common decency and humanity we hope that these charges against Gov. Hartranft are untrue. We can not force ourselves to believe that even a republican executive would so far forget himself as to cossbire with a gang of thieves and murderers for the purpose of securing his election. And yet the evidence is damning. Let John F. Hartranft explain.

Grist from the Outrage Mill.

A correspondent of the New York *World*, writes from Memphis, Tennessee, under date of July 13, says, two days ago a warrant was issued for the arrest of "Frances Thompson," foremerly a witness before a congressional investigating committee and more lately the most infamous procuress in Memphis. Dr. J. H. Nuttall, a well-known Memphis physician, having been in some way advised that there was suspicion as to the true sex of this vile creature, she was summoned before the recorder who ordered an investigation by four of the most prominent physiin the city. These physicians came into court and testified that this pseudo woman, is really a man and in no respect a woman. The court then imposed a fine upon "Frances Thompson," in demuit of which she (he) was taken with the chain-gang to the city rockpile, after having been stripped of female attire and endued in the garb appropriate to her (his) sex. Such is the character of the witness on whose testimony and that of a negro named Lucy Smith, who lodged and slept in the same bed with "Frances Thompson," Messrs. Washburn and Broomall, Republican members of a congressional investigating committee to inquire into certain alleged riotous proceedings in the city of Memphis, in the year 1866, made report that "the crowning acts of atrocity and diabolism committed were the ravishing of five colored women." The rape of "Frances Thompson," Messrs. Washburn and Broomall go on to say, "is one to which reference is here made." After starting, according to the testimony of "Frances Thompson," that seven men, who had policemen's stars on their breasts and who were "all Irishmen," had on a certain night entered the house of said "Frances Thompson," Messrs. Washburn and Broomall declare that "the woman, Frances Thompson, was then violated by four of the men, and so badly beaten and bruised that she lay in bed for three days." The testimony of "Frances Thompson," on which Messrs. Washburn and Broomall base their statements may be found on pages 196 and 197 of their report. Thus the evidence of this perjured negro scoundrel, dressed in woman's clothing, was made the thread of a horrible narrative, authenticated by the signatures of two leading Republican members of Congress, printed at the government expense and sent out by tons through the mails under the then existing franking privilege. The vile fabrication served its purpose. But the people against whose good name it was directed have lived down the base calumny and it is now their turn to laugh. Probably there are two men who by this time are fully impressed with the truth of the adage that "he laughs best who laughs last," and those two are Elihu B. Washburn, Minister to France, and the Hon. John M. Broomall, of Delaware county, Pennsylvania. Republican members of Congress and Republican newspapers at present engaged in grinding out a new grist from the "outrage mill" may profit by their experience."—*Pottsville Standard.*

CENTENNIAL RETRENCHMENT.—The Board of Finance of the Centennial has found it necessary to cut down expenses, and the work has been commenced in earnest. A number of attaches of the various bureaus have been discharged, insuring a saving of $300 per week, while the wages of the keepers at the money gates have been cut down from $4 to $3 per day, and those at the free gates from $3 to $2.50 per day; in addition to which 100 of the guard were discharged. This retrenchment has been begun on account of the decreasing attendance at the Exhibition and the consequent curtailment of receipts. The gate keepers objected to the reduction of their wages, but succumbed when informed that there were 2,700 applicants for their places. It is understood that the expenses of the Centennial have heretofore fouled up from $8,000 to $10,000 per day, or about as much as the expenses of a large city.

The Yacht Mohawk was struck by a squall off Stapleton, Long Island on the 20th inst, and capsized. A party of ladies and gentlemen were on board, and four lives were lost. The accident occurred through the carelessness of the captain in not taking in sail when the the gale came up. He has been discharged.

Mr. General Custer is dangerously ill.

CENTENNIAL.—The admissions on Monday were: Cash, 20,754; free, 18,562; total, 31,316. The cash admissions were about four thousand more than on Saturday. The total admission up to Monday, inclusive, were 2,425,049, and the total cash receipts $798,528. The cash admissions yesterday were 21,916.

From the 10th of May, the average daily expenses of the Commission and the Board of Finance have been about $9,000. The average daily cash receipts for the same time have been exactly $12,285,05.

Grant's Latest.

Washington, July, 24.—President Grant has appointed C. C. Sheats, who was removed from the position of Sixth Auditor of the Treasury for incapacity, to be Customs Appraiser at Mobile, Ala. Secretary Bristow refused to appoint anyone to this position, because there are no duties to be performed in it.

The republican campaign fund has been enriched to the amount of three thousand dollars. This is the precise amount offered by Charles M. Reed to Postmaster General Jewell for the appointment of Col. Walker to the Erie post office. The appointment has been made and confirmed, and Reed no doubt has been as good as his word. If not Chairman Hoyt should draw for the money at once

Mr Moody will do no work on Saturday—that day is sacred for rest. Mr. Spurgeon shuts himself up on Saturdays. There is a story told of a man who called on Saturday and insisted on seeing him. The servant inquired who he was. "Tell him a servant of the Lord wishes to see him." The message was delivered, and Mr. Spurgeon sent back the answer, "Tell him that I am engaged with his master."

WASHINGTON LETTER.

WASHINGTON, D. C., July 25, 1876.

Several of the appropriation bills which have been a bone of contention between the House and Senate have been agreed to during the week, and five still remain to be compromised. Four of these are before conference committees and the other, the river and harbor bill, is yet being discussed by the Senate. It was understood on Friday that a partial agreement upon the toughest and most hopeless one of the lot—the legislative, executive and judicial—has been partially compromised, and it is confidently expected that it may to-day be entirely disposed of, rendering those remaining comparatively easy of adjustment. The Senate committee to which was referred the river and harbor bill made a little cheap reputation by cutting off many of the appropriations granted by the House; but if the House committee and the House were obnoxious to the charge of jobbery and log-rolling in reporting and passing such a bill, the Senate has incurred a greater weight of odium in restoring all the jobs eliminated by its committee and adding others of its own. One substitute and many amendments have been incontinently voted down in that body, and the bill still remains, a monument of folly and extravagance. There appears to be a growing sentiment among the members of both parties to take the matter of river and harbor improvement out of the hands of committees and turn it over to the decision of competent engineers.

The Belknap case hangs fire on account of the indisposition of one of the managers and of Carpenter of the defense. The testimony of Evans, which was deemed of so much consequence that the trial was adjourned to await his coming, did not really change the bearings of the case in any particular. It only went to confirm Marsh, and might have been dispensed with without detriment to justice. The evidence is all in and it was voted to resume the consideration of the case on Wednesday. Mr. Blair has already made a portion of his opening argument, and it does not seem that it will occupy more than a very few days more, although it is generally supposed that the defendant's counsel will make elaborate and protracted pleas. What those Senators who voted against their jurisdiction are going to do when a final vote is reached is a conundrum not easy to solve.

The belief is unhesitatingly expressed in Democratic circles that the evidence against Robeson, mountains high, warrants his impeachment, and it was supposed that immediate steps in that direction would have been taken. But prompted by judicial fairness, the testimony as taken may be submitted to the judiciary committee for the opinion of the eminent lawyers partly composing it as to that official's amenability to that method of punishment for violation of law. Two members of the Cabinet on trial at the same time would be a refreshing spectacle to the members of the party of "moral ideas."

The matter of making silver a legal tender is being warmly discussed here at the capital and the disposition to restore it to its old place is wide-spread.

The House committee on mines and mining has reported a bill providing for the issue of coin notes for $50 and the multiples thereof up to $10,000, to be redeemed by the various mints and assay offices by the silver and gold bullion on deposit there. Section 4 of the act provides "That the coin notes issued under the provisions of this act shall be a legal tender for all debts of the United States, public and private, not specified to be paid in coin." The prospects for a repeal of the resumption act are brightening with the discussion it provokes. One of the members of the committee on banking, heretofore opposed to its repeal, is now counted among those in favor of the measure. Should this prove true it is believed the currency reformers have sufficient strength in the committee to report a bill for its repeal. This will put the party representatives in Congress in harmony with the declarations of the St. Louis convention and compromise the only real differences between members of the party in different sections of the country.

Much consternation has been created among the Republican leaders by the many rumors that Grant had pardoned Avery and contemplated the same friendly action toward others of the whisky ring. He has been labored with, but he is rather an ugly customer when he gets his back up, and there can be no doubt that it has assumed a very defiant curve since Hayes' letter of acceptance came out. The impression is pretty general that he and Attorney General Taft are at loggerheads about it, and nothing that his highness may now do need surprise any one. RENO.

Common sense teaches if Tape worm be removed all other worms can be readily destroyed. Send for circular to Dr. Kunkel, No. 229 North 9th street, Philadelphia, Pa., or call on your druggist and ask for a bottle of Kunkel's Worm Syrup. Price $1.00. Never fails. July.

A Health Promoting Stimulant.

Physicians, who certainly ought to be the best judges of such matters, declare that wholesome stimulant is not only desireable but essential in many instances. When the temporary good effect of a sound stimulant is confirmed and rendered permanent, as in the case of Hostetter's Stomach Bitters, by the action of tonic and alterative principles combined with it, it becomes infinitely more efficacious as a renovant of physical energy and a corrective of those conditions of the body which invite disease. The Bitters have received the emphatic sanction of medical men who have observed the effect of that popular stimulative cordial as a remedy for weakness, nervousness, dyspepsia, constipation, inactivity of the liver, malarious fevers, and many other diseases. Its basis is sound old rye, the purest liquor known to commerce, and itself possessing tonic properties of no mean order. July 1mo

Frost is said to have made its appearance in some parts during the past week.

Charles Unangst, Esq., and wife, of New York, are spending the summer at home with their parents.

The Montour County Agricultural Society will hold their annual exhibition in Danville on the 27th, 28th, 29th and 30th of September.

Jacob Ahl, who has been absent from home for the last five years, in the United States service, returned recently, his time of enlistment having expired.

The festival held in Cadman's store room last week for the benefit of St. Columbkill's church was well attended. The net proceeds were about seventy-five dollars.

The wheat crop in this County is reported to be poor, some farmers saying that they have hardly got back what they sowed. In the West and in Europe the yield is said to be good.

Mr. Leoni Mellick, who has been pursuing his legal studies in Philadelphia for the past year, is spending the summer with his parents in Light Street.

We hear rumors of a large fire in East Nanticoke last night. None of the particulars have yet reached here, further than that Mr. Riswick, formerly of Bloomsburg, is one of the losers.

The sign boards in Pine, Sugarloaf and some other townships are not up according to law. If constables do not attend to this part of their business they had better be a little careful how they swear to their returns at September Court.

Rev. F. Ohl, formerly of this County, but for the last ten years rector of a parish in Zanesville, Ohio, conducted the services at St. Paul's Epi copal church on Sunday last. The church will be open next Sunday.

For reckless, wilful, malicious misstatements on political questions the *Lewisburg Chronicle* has no equal. It even beats the *Republican* of this place. It shows a lack of intelligence among the readers of such a journal when they can tolerate such stuff.

Clinton C. Swisher, formerly of Bloomsburg, graduated at Yale College in the class of 1876. Mr. Swisher is endowed with many good qualities and we wish him success in whatever calling he may choose for his life work.

Probably the oldest printer now living in Columbia county is Thomas Trench, proprietor of Trench's paper-mill, near Light Street. He is about seventy years of age. We are told that he was employed in printing the first edition of Cobb's spelling-book.

A festival for the benefit of the Rescue Fire Company will be held in the Opera House on Friday and Saturday evenings, July 28th and 29th. Refreshments will be served both evenings. All should come.

A very marked and agreeable change in the weather took place on Saturday last. After sweltering for weeks with the thermometer at 98 degrees, it was truly refreshing to find it ranging from 50 to 70. The cool weather has continued up to the present. Splendid for the Centennial show.

We would return thanks to a number of gentlemen of Catawissa for their kindness to a representative of this paper while on a business visit to their town. Through their assistance he succeeded better in the object of his trip than he possibly could have done without them.

The annual meeting of the Columbia county Sabbath School Association will be held in the Presbyterian church at New Columbia, Hemlock township, on Tuesday, Wednesday and Thursday, the 29, 30 & 31 days of August next.

M. W. Nuss, Sec'y.

The enterprising druggists, Moyer Brothers, are enlarging and refitting their prescription department. They have employed Marshall G. Kinney, Jr., a practical pharmaceutist of large experience, to take charge of this branch of their extensive trade. We congratulate them on securing the services of so able an assistant.

Democratic "reform" means turn out 80,000 Republican office-holders and put in their places 80,000 Democrats.—*Lewisburg Chronicle.*

Well, yes, if they are all like Buckalew, Schenck, Babcock, Sheppard, Robeson, and so on. "Reform" means the appointment of honest and capable men.

The twenty-third annual session of the Pennsylvania State Teachers' Association will be held in Horticultural Hall, West Chester, on the 8th, 9th and 10th of next month. Several distinguished educators from abroad are expected to be present. Boarding at hotels from $1.50 to $2.50 per day; in private families from $1.00 to $1.50 per day.

Centre street from Main down has been greatly improved by a layer of cinder and gravel. When the proper persons become convinced that it is their duty to put that portion of the street from Main to Rosemont Cemetery in a passable condition they will be entitled to the thanks of the citizens, if they don't wait too long.

OUTRAGES ON COLORED MEN!

"ARCHIE" AGAIN.

Archie, our colored friend and brother, is others unhappy or is in trouble himself, never so happy as when he has made He has been the subject of many a local in the COLUMBIAN, and is quite familiar with our Police and Justices. Now it seems that on Thursday evening of last week a number of colored men resolved, *first*, to fill themselves with benzine, *second*, to have a quarrel, and lastly, to enjoy a fight. The benzine they imbibed generally; the quarrel was miscellaneous, but the fight was a duel between Archie and his colored friend Stout. The first knock-down was made by Archie, but the first blood was drawn by Stout, who used a dirk to such advantage that he soon had nine gashes in Archie's body, an ugly one being across his loins. Archie, however, pursued Stout to Iron Street, where the former fell from loss of blood. He returned to the Exchange, near which the trouble began, and Dr. Reber sewed up his wounds, and Archie proceeded home a little the worse for wear. Constable Woodward failed to find Stout, who had decamped.

Of course our Republican friends are disappointed that this incident did not occur in Louisiana or South Carolina. It would have been a first class basis for a first class "outrage," and frantic appeals would have been made to Secretary Cameron to detach a couple of Regiments from Sitting Bull's front and send them to the scene of the outrage to "protect the colored man in his rights."

We occasionally receive a paper returned through the post office with simply the name of the subscriber on it. As our time is too much occupied to spend a day looking for the address of such persons, we pay no attention to them. It may as well be understood that we will discontinue no paper unless the subscriber sends his address in full and *pays his subscription up to date of stoppage.* The law permits us to do this and we propose to carry it out.

The steam fire engine question is being agitated. We would rejoice to see our fire companies the possessors of a fine Silsby if we had any use for it, but just at present it would be an elephant. Without any immediate assurance of water works, it would be unwise to expend several thousand dollars for a machine that would be worthless without them. We must have a supply of water and then we can begin to talk about a steamer.

A CARD.

It is proper that I should explain to my friends that business engagements will prevent me from making a canvass of the County to solicit votes as a candidate for Congress. My devotion and services to the party are known; and I believe the people, unaided, are fully competent to judge of the qualifications of a candidate for that important office without personal solicitation.

tf C. B. BROCKWAY.

We have forwarded to the various election districts the tickets and election papers for the delegate election to be held Saturday, August 5th. The names of *all* the candidates are printed on one ticket in alphabetical order. In voting instructions the voter should strike out all the names on the list except his choice. One candidate is to be selected for each office, except Representative and Associate Judge, for which two candidates are to be named. The tickets and election papers are to be returned to the Convention. 2w

Our readers will find in another column the advertisement of the "Peabody Medical Institute," of Boston, which publishes the immensely popular work entitled "The Science of Life, or Self-Preservation." It should be in the hands of every young man and every person suffering from a decline of the physical powers. The Institute also publishes those invaluable treatises, "Sexual Physiology of Woman," and "Diseases of the Nerves and Nervous Maladies." A very elaborate and costly gold medal has recently been presented to the author of these works by the National Medical Association. Don't fail to read the advertisement.

We publish the following as a specimen of numerous letters we are receiving. Our liberal offer is being accepted by many intelligent citizens throughout the County. Another opportunity of the kind will not be given soon again, and every body should avail himself of it now.

CATAWISSA, Pa., July 22nd, 1876.

MESSRS. BROCKWAY & ELWELL:

Dear Sirs:—Seeing your advertisement for the Campaign COLUMBIAN from August 1st until after the election in November for 50 cents, and seeing, or rather reading, your paper this evening for the first time I like it very much, and enclosed you will find 50 cents to pay for the paper for that length of time. Yours, &c.,

COMBINATION OPERETTA

At Bloomsburg Opera House, August 2d and 3d, 1876, under the management of S. K. White, formerly a school boy and teacher in this part of the State. Don't fail to see this beautiful entertainment. Fully a hundred voices will take part among the happy picnic, the fairies or gipsies. All appear in character and costume. The work has for its object the teaching of kindness to the suffering and a trust in divine aid in times of need—so do not be afraid you are coming to some trifling show. It will delight every body and harm nobody. Tickets and reserved seats can be secured without extra charge at G. A. Clark's book store.

BASE BALL.—On Saturday last the Pastimes of Bloomsburg met and defeated the Excelsiors of Orangeville and Light Street. The Excelsiors are a strong picked nine, and the Pastimes may feel proud over their victory. The game was played at Light Street.

BOOK NOTICES.

ECLECTIC MAGAZINE.

The *Eclectic* for August contains an excellent portrait of Mr. A. R. Spofford, Librarian of Congress, which is accompanied in the letter-press by a brief but appreciative sketch of his life. The literary contents of the number are copious and various, with an unusual proportion of light and entertaining articles, as befits the season, and yet offering nothing which is not distinctly worth reading on its own account.

ROBINSON'S ARITHMETICS.

We have received from Charles W. Scott, agent for Ivison, Blakeman, Taylor & Co., of New York, a series of Robinson's Arithmetics, revised by Daniel W. Fish, A. M. The set consists of a First Book which contains all the elementary principles arranged in a systematic and analytical manner superior to any thing of the kind that has yet come to our notice. The Complete Arithmetic consist of two volumes the first carrying the student to Percentage, and the second completing the study. Every subject is ably and fully treated, and it is our belief that these books will soon supersede many other arithmetics now in use.

BORDER LIFE, PRESENT AND PAST.

The terrible fate of Custer and his gallant three hundred adds another tragic chapter to the great book of border events whose beginning dates from the earliest settlements of our country, whose end shall be only when the Indians as a race shall have become extinct.

The horrors of the Modoc campaign are yet fresh in our memories. The historic Lava Beds, Indian cunning baffling the skill of our soldiery for so long a time, savage malignity, and treachery culminating in the death of the brave Canby and others whose mission was honorable treaty and peace—all these are still remembered with a shudder. Their parallels in device and atrocity are only found in the deeds that compose the history of the "Dark and Bloody Ground," or among those which mark the bloody tracks of the treacherous Mingoes, descending from their Great Lake fastness upon the unsuspecting tribes and settlements of the Susquehanna and Allegheny.

So with this heart-rending story of Custer and his men, which has been sprung upon the country so suddenly, and which is being read amid tears of sorrow and calls of vengeance, from one end of the land to the other. Some may find its parallel in the history of Leonidas and his three hundred; some may seek for like sacrifices amid the annals of the Scottish Chiefs or Polish Patriots. But it is only when we turn to the thrilling chapters of our old Border History that we read and re-read, in intensified form, the bloody story of Rose Bud and Big Horn Rivers. Custer and his three hundred, ambushed by a wily foe and melting away in death before odds rendered doubly and terribly formidable by bewildering shrieks and stealthy modes of fighting, recall with vivid effect the tragedy of Braddock's Field, whose details are so graphically and fully narrated in that wonderful book, "Our Western Border One Hundred Years Ago."

Or if other parallels be sought, they abound in the same brilliant, stirring and faithful volume; for Custer and Big Horn, Canby and the Lava Beds, Modoc and Sioux, are but repetitions, now fainter, now fiercer, of Dalzell and Bloody Run, Crawford and Battle Island, Harmer and the Miami Towns.

The new story, whether of victory or defeat, massacre or escape, cunning or adventure, treachery or dash, hardship or retreat, is but an epitome of the old filled with its quaint and primitive portraitures, haloed about by thrilling traditions, and sanctified to us by the facts that our fathers were a part of it and these our dwelling places were scenes in the midst of it.

DEATH FROM A FLY'S BITE.—Mr. Edward Joseph, of the firm of M. Kotosk & Co, hatters, a promising young man of about twenty-five years of age, died to-day from the bite of some insect. While driving on Sunday afternoon last he felt something which he supposed to be a fly on his upper lip, and immediately afterward was sharply stung. He paid no attention to the matter at the time, but some hours afterward his lip began to swell and became very much inflamed. In a day or two the swelling extended to his face, and subsequently to his body, and the services of Drs. Craig and Macdonald were obtained. The young man took to his bed on Wednesday, but his friends did not anticipate fatal results until this morning, when he became delirious. His death took place about nine o'clock. Although of late few deaths from the bite of flies feeding on decomposed matter have been reported, yet some years ago several cases occurred in Montreal from this cause within a short period of each other.—*Montreal Witness.*

Liver Complaint.

By R. V. Pierce, M. D., of the World's Dispensary, Buffalo, N. Y., Author of "The People's Common Sense Medical Adviser," etc., etc.

The liver is the great depurating purifying organ of the system, and has very appropriately been termed the "housekeeper" of our health. I have observed in the dissecting-room, and also in making *post-mortem* examination of the bodies of those who have died of different diseases, that in a large proportion of cases, the liver has given evidence of having at *some* time been diseased. Liver affections are equally prevalent in beasts. Every butcher knows that the livers of cattle, sheep, and swine, are ten times as frequently diseased as any other organ. A healthy liver each day secretes about two and a half pounds of bile. When it becomes torpid, congested, or if, from any cause, it be disabled in the performance of its duties, it is evident that the elements of the bile must remain in the blood, thus irritating, poisoning, and perverting, every vital process. Nature attempts to rid the system of these noxious materials by means of other organs, as the kidneys, lungs, skin, etc., which becomes overtaxed in performing their additional labor, and are unable to withstand the pressure.

The brain, which is the great electrical center of all vitality, becomes overstimulated with unhealthy blood, and fails to normally perform its functions. Hence there is dullness, headache, impairment of the memory, dizziness, gloomy forebodings, and irritability of temper. When the blood is diseased, the skin manifests discolored spots, pimples, blotches, boils, carbuncles, and scrofulous tumors. The stomach and bowels, sooner or later, becomes affected, and constipation, piles, dropsy, dyspepsia, or diarrhœa, is the inevitable result.

SYMPTOMS OF LIVER COMPLAINT.

A sallow color of the skin, or yellowish-brown spots on the face and other parts of the body; dullness and drowsiness, with frequent headache; dizziness, bitter or bad taste in the mouth, dryness of the throat, and internal heat; palpitation of the heart, a dry, teasing cough, sore throat, unsteady appetite, sour stomach, raising of the food, and a choking sensation in the throat; sickness and vomiting, distress, heaviness, and a bloated, or full feeling about the stomach and sides; aggravating pains in the sides, back, or breast and about the shoulders; colic pains and soreness through the bowels; constipation, alternating with diarrhœa; piles, flatulence, nervousness, coldness of the extremities, rush of blood to the head with symptoms of apoplexy; numbness of the limbs (especially at night), and chills, alternating with hot flashes; kidney and other urinary difficulties, dullness, low spirit, and gloomy forebodings. Only a few of these symptoms will be likely to be present in any case at one time.

TREATMENT.—Take *Dr. Pierce's Golden Medical Discovery*, with small doses of his *Pleasant Purgative Pellets*, which act as an alterative on the liver. For Liver Complaint and the various affections caused by a diseased liver, these remedies are unsurpassed. The Golden Medical Discovery does not simply *palliate* the disease, but it produces a lasting effect By its use, the liver and stomach are changed to an active, healthy state, the appetite is regulated, the blood purified and enriched, and the entire system renovated and restored to health.

The Discovery is sold by druggists, R. V. Pierce, M. D., Proprietor, World's Dispensary, Buffalo, N. Y.

Peruvian Syrup vs. Alcoholic Tonics.

It has been a desideratum with the medical profession to procure a preparation of iron less objectionable than any of those now in use, which often produce unfavorable effect upon the system, especially when prepared with alcoholic fluids.

In many cases of debility and convalescence from disease, where a tonic is indicated, wine, brandy, porter, &c., have been recommended; but these are of very doubtful efficacy, to say the least. Alcohol is never digested, is ranked among the diffusible stimuli, and is incapable of affording nutrition. It creates generally an unnatural excitement and derangment of the circulation, irritating the whole system by preventing the blood from losing its carbon. Again, how difficult it is to obtain an article approaching to purity, almost all the wines, brandies, porters, &c., being more or less adulterated.

Such being the case with regard to the spirituous preparations of iron, and the alcoholic drinks, of which any one can satisfy himself by investigating the subject, an opportunity is now presented in the Peruvian Syrup, for the trial of an article in general practice, which has the very strongest recommendations from medical and scientific men of the highest character—a preparation which so happily combines the protoxide of iron with the other constituent parts that the effect incident to the use of iron salts are entirely obviated.

For all cases in which iron or any tonic is needed this preparation is confidently believed to be far superior to any other. It seems to purify the very fountain of health.

AN HISTORICAL FACT.—Every agent who has been steadily selling the Improved $20 Home stead Sewing Machine for three years, owns his dwelling house, has a good account in bank, is clear of debt, and has money at interest.—the natural consequence of securing a good agency for superior goods at the lowest prices. A good first-class Sewing Machine, most useful—reliable at all times, easy to understand and control, the same size and does the same work as any machines that sell at four times the price. There is no machine at any price better, or that will do finer or more work, and certainly none so low in price by many dollars. The Homestead is widely known and used in thousands of families in the Eastern and Middle States, and daily becoming popular in the West. It will save its cost several times over in one season, doing the work of the family, or will earn four or five dollars a day for any man or woman who sews for a living. It is the strongest machine made, is ready at all times to do its work, makes the strongest and finest stitch yet invented, and is fully acknowledged as the Standard Family Sewing Machine. Price, complete for domestic use, $20, delivered at your door, no matter how remote you may reside. Business permanent and honorable, with more certain and rapid sales, and larger profits than any other. Extraordinary liberal offers made to local or traveling agents where we have none established; or, if there is no agent near you, send your order direct to the factory. Dr. Terry's Vegetable Nerve Remedy.

For a perfect restoration of the nervous system causing an immediate and proper cure in the following cases: nervous debility impaired nutrition of the body, headache, weakness in the limbs and back, indisposition and incapacity for study, dullness of apprehension, loss of memory, aversion to society, timidity, self-distrust, dizziness, headache, incident to cold sores, for whose benefit it is designed and whose happiness it will promote.

The most eminent physicians of this country have exerted the inmost to the utmost to check the increasing fatality resulting from the relaxation of the nerves. Having for a long period devoted much study, time and labor in establishing a remedy for the above mentioned of the nervous system, it is gratifying to be able to announce the success attending my new method. Through this remedy the nerves can be reached and in such a way that, however shattered or prostrated, they can be perfectly restored. It acts on the nerves at once, yet with gentleness—restoring them to a natural state, and removing the above distressing diseases.

Both sexes, more or less, through the prostration of the nervous system, lose their energy. In such instances the Nerve Remedy may be relied upon in restoring the patient to the vigor of youth.

The Nerve Remedy is carefully compounded and put up in boxes with full directions. Price, one dollar, expressed to any address on receipt of price.

Toads.

There is a very common prejudice against the toad. By many he is looked on with a loathing and disgust. He is regarded as an ugly, uncouth and worthless nuisance, that should be abated at sight. But this prejudice is ill-founded and unjust, as the toad is not only harmless but quite useful to farmers and gardeners. They should therefore be regarded as friends instead of being treated as enemies. The eggs of the toad are usually laid in the water, but sometimes, when this is not accessible, they are laid in damp, dark places, and in such cases they do not pass through the tadpole state While in the tadpole state they live on vegetable food, but as toads they live on insects, spiders, &c. They are exceedingly well adapted to catching insects, having a tongue of marvelous construction. It is quite long, and may be projected six or eight inches, the tip of it being so directed as to just reach the object, and being covered with a viscid, gummy substance, that causes the insect to adhere to it, it is thus quickly conveyed to the mouth of the toad and buried alive. The movements of the tongue in thus taking in a fly or a bug, are so rapid that they cannot be followed by the eye. The number of insects that a toad will eat is almost incredible. A few of them in a garden will keep it well rid of bugs, plant-lice, &c. They generally spend the day in some dark, secluded spot, often a hole under a sod or clod, or the side of a rock, and in the evening they come out and hop about in search of a supper of live insects. They may be induced to take up their residence in the garden by confining them for two or three days to the place, when they will become quite well contented. A board laid about two inches from the ground, is just the kind of a hiding place that suits them. They are long lived, being often known twelve to sixteen years old, and it is said that one lived to be 36 years old. On account of their propensity for destroying insects, toads should be encouraged to become permanent residents of our fields and gardens.—L. J. T.—*Practical Farmer.*

What Constitutes a Good Fertilizer.

No ordinary plant can thrive without a sufficient supply of each of a number of substances needed for its food. With an abundance of all these in forms in which the plant can use them, and with other circumstances favorable, the plant will flourish and the yield will be large. But if the available supply of any one of them be too small a light yield is inevitable. Every ordinary soil contains all the ingredients of plant food. In "worn out" soils the available supply of one or more of these is generally insufficient.

Fertilizers supply the plant with food which the soil lacks. Barnyard manure not only does this, but also improves the soil as a living place for plants. Lime and plaster (sulphate of lime) are necessary as plant food, but as fertilizers, they are chiefly valuable in rendering other plant food available to crops. The ingredients to plant food generally most lacking in our cultivated soils are nitrogen,, phosphoric acid and potash. The usefulness of guanos, superphosphates, bone manure, poundretts, potash salts, and other similar fertilizers, depends mainly upon these ingredients. Such fertilizers are generally more or less valuable in proportion as they contain larger or smaller percentages of nitrogen, phosphoric acid, and potash, and as these are in a form more or less available to the plant. If all the other conditions for a profitable crop of corn or turnips are fulfilled in a soil, except that phosphoric acid is deficient, the phosphoric acid must be supplied. This may be done with bone, which contains a large percentage of phosphoric acid combined with lime as "phosphate of lime."

About Fruit Trees.

People learn something almost every day. Concerning the benefits of the use of anthracite coal ashes applied to the roots of fruit trees, known to a great many, a German friend gave us his experience lately. Said he: "My dress vas about used up. Von winder my boy vas to lazy too carry de ashus off und he drowd dom against a dree like. Next spring as I vas left home I doldt him to take avay dem ashus but der komb a rain and he didn't do it. I vas madt, but de blossoms dey kombdt oudt on dat dree, oh my, so dick as I never see, undt I tought the ashus must do dat, und so I put ashus around all de drees, und next year der vas more as I knowd how of beeches, und apples und bears. Some of dem drees has been going on now dwenty years und day make good fruit yet." We saw the experiment many years ago on some stubs of fruit trees which were not considered of any value, and they put forth new shoots and yielded better fruit than in their vigorous youth. The German says the ashes "kills all dem bugs und vorms und makes good blue." Persons who are not acquainted with this fact can depend upon finding coal ashes a better fertilizer for fruit trees than the best phosphates make.

SCALDS AND BURNS.—*Hall's Journal of Health* gives the following advice on the treatment of scalds and burns. "On the instant of the accident plunge the part under cold water. This relieves the pain in a second, and allows all hands to be composed. If the part cannot be kept under water, cover it with dry flour, an inch deep or more. In many instances nothing more is needed after the flour; simply let it remain until it falls off, when a new skin will be found under. In severer cases, while the part injured is under water, simmer a leek or two in an earthen vessel, with half their bulk of hog's lard, until the leeks are soft, then strain through a muslin rag. This makes a greenish colored ointment, which, when cold, spread thickly on a linen cloth and apply it to the injured part. If there are blisters, let out the water. When the parts become feverish and uncomfortable, renew the ointment, and a rapid, painless cure will be the result, if the patient in the meanwhile lives exclusively on fruits, coarse bread and other light loosening diet.

PARSNIPS.—The culture of parsnips is largely extending into France for cattle feeding; and as an ordinary garden vegetable it is also in great demand. The soil that suits beets will satisfy the parsnip, and the manure is plowed down or dug in; the seed is sown either in rows by a machine or broad cast, and the plants receive but two weedings or hoeings—when the plants are five and fifteen inches high respectively. The leaves are cut in the month of September, and allowed to fade for 24 hours before giving to the cattle. The roots can be taken up during the winter as required; frost does them no harm; the ration is sixteen pound-three times a day and the roots are cut; when given to pigs they ought to be cooked. In the West of France the parsnips replace oats for horses, and being very nutritive all animals quickly put up flesh when fed on this root.

VEGETINE

Strikes at the root of disease by purifying the blood, restoring the liver and kidneys to healthy action, invigorating the nervous system.

Vegetine

Is not a vile, nauseous compound, which simply purges the bowels, but a safe pleasant remedy which is sure to purify the blood and thereby restore the health.

Vegetine

Is now prescribed in cases of Scrofula and other diseases of the blood, by many of the best physicians, owing to its great success in curing all diseases of this nature.

Vegetine

does not deceive invalids into false hopes by purging and creating a factitious appetite, but assists nature in clearing and purifying the whole system, leading the patient gradually to perfect health.

Vegetine

Was looked upon as an experiment for some time by some of our best physicians, but those most incredulous in regard to its merit are now its most ardent friends and supporters.

Vegetine

Instead of being a puffed up medicine has worked its way on to its present astonishing success by actual merit in curing all diseases of the blood, of whatever nature.

Vegetine

says a Boston physician, "has no equal as a blood purifier. Fearing of its many wonderful cures, after all other remedies had failed, I tried the laboratory and convinced myself of its genuine merit. It is prepared from barks, roots and herbs, each of which is highly effective, and they are compounded in such a manner as to produce astonishing results."

Vegetine

is acknowledged and recommended by physicians and apothecaries to be the best purifier and cleanser of the blood yet discovered, and thousands speak in its praise who have been restored to health.

WHAT IS NEEDED.

BOSTON, Feb. 13, 1871.

MR. H. R. STEVENS:

Dear Sir—About one year since I found myself in a feeble condition from general debility. VEGETINE was strongly recommended to me by a friend who had been much benefitted by its use. I procured the article and after using several bottles was restored to health and discontinued its use. I feel quite confident that there is no medicine superior to it for those complaints for which it is especially prepared, and would cheerfully recommend it to those who feel that they need something to restore them to perfect health. Respectfully yours, U. L. PETTINGILL.

Firm of S. M. Pettingill & Co., 10 State St., Boston.

CINCINNATI, Nov. 26, 1874.

MR. H. R. STEVENS:

Dear Sir—The two bottles of VEGETINE furnished me by your agent my wife has used with great benefit. For a long time she has been troubled with dizziness and costiveness; these troubles are now entirely removed by the use of VEGETINE. She was also troubled with Dyspepsia and General Debility; and has been greatly benefitted.

Feel Myself a New Man.

NATICK, MASS., June 1, 1872.

MR. H. R. STEVENS:

Dear Sir—Through the advice and earnest persuasion of Rev. E. S. Best, of this place, I have been taking VEGETINE for Dyspepsia, of which I have suffered for years. I have used only two bottles and already feel myself a new man. Respectfully,

DR. J. W. CARTER.

Report from a Practical Chemist and Apothecary.

BOSTON, Jan. 1, 1874.

Dear Sir—This is to certify that I have sold at retail 1548 dozen (1852 bottles) of your VEGETINE since April 19, 1871, and can truly say that it has given the best satisfaction of any remedy for the complaints for which it is recommended, that I ever sold. Scarcely a day passes without some of my customers testifying to its merits on themselves or their friends. I am perfectly cognizant of several cases of scrofulous Tumors being cured by VEGETINE alone in this vicinity. Very respectfully yours,

A. I. GILMAN, 468 Broadway.

TO THE AFFLICTED AND UNFORTUNATE.—There is no class of diseases that require more experience to treat successfully than those of a private character. Many physicians suppose that when the primary symptoms are removed, the disorder or poison has been overcome. Such is not the case. The difficulties, or the various stages of the disease are then to succeed. The parts first attacked are the throat, nose, mouth, tongue, skin, tendons, bones, ligaments, ears, eyes, &c. Frequently these symptoms are treated by physicians as simple ulcerations, until some of the important organs of the body become affected, which death relieves the sufferer. DR. H. W. LOBB, having made all private diseases a study, guarantees a speedy and permanent cure with purely vegetable medicines. Medical offices and drug store, No. 331 North Fifteenth street. IMPORTANT TO ALL.

DR. SWAYNE,

The discoverer and compounder of the far-famed

Compound Syrup of Wild Cherry

and other valuable preparations, entered upon his professional career with the important advantage of a regular medical education in one of the oldest and best schools in Philadelphia, and, perhaps, in the world. He subsequently served a faithful term of practice in the Philadelphia Dispensary, and for many years attended in the Hospital. In these institutions he enjoyed the most ample opportunities of obtaining an insight into diseases in all their various forms, as well as for ascertaining the best methods of their treatment. In offering, therefore, to the people of the United States the fruits of his extensive professional experience in the medical compounds as the best results of his skill and observation, he feels that he is but proffering a boon to every family throughout the land, resting, as he does, confidently in the merits and efficacious virtue of the remedies he herewith commends. The vast amount of testimony from all parts of the world has proven "DR. SWAYNE'S COMPOUND SYRUP OF WILD CHERRY" the most efficacious remedy known, and it is admitted by our most eminent physicians, and all who have witnessed its wonderful healing properties. The WILD CHERRY in all ages of the world and in all countries where it is known has been justly celebrated for its wonderful medicinal qualities but its great power to cure some of the worst and most distressing diseases among us was never fully ascertained until the experiments of that skilful physician, Dr. Swayne, had demonstrated its high adaptation, in combination with Pine Tree Tar, and other equally valuable vegetable ingredients, which choicely combined renders it action tenfold more certain and beneficial in curing all diseases of the throat, breast and lungs. DR. SWAYNE'S WILD CHERRY COMPOUND strikes at the root of disease by purifying the blood, restoring the liver and kidneys to healthy action, invigorating the nervous and shattered constitution. If your druggist or storekeeper does not have it, do not be put off by any other remedy that may be offered, but send to us direct, and we will forward a half dozen to any address, freight paid, on receipt of the price, $5 per bottle, or $9 the half dozen. Address letters to DR. SWAYNE & SON, 330 North Sixth street, Philadelphia. No charge will be made for advice.

Ask Your Druggist for Them.

Females and all who value health should never be without DR. SWAYNE'S TAR AND SARSAPARILLA PILLS, as they purify the blood, remove all obstructions, cleanse the skin of all pimples and blotches, and bring the rich color of health to the pale cheek. Female irregularities are restored to a healthy condition. They are a certain cure for Sick and Nervous Headache. As a Dinner Pill, nothing can exceed them: take one, two, or three, as may be found necessary; unlike others, they neither gripe, produce nausea, or any other unpleasant sensation, while they are as powerful as it is possible for a medicine to be and be harmless. These pills cleanse out the disordered humors, enrich and purify the blood, remove all unhealthy bilious secretions of the stomach and bowels, causing a perfectly healthy state of the liver, and are undoubtedly the best cathartic and antibilious medicine yet discovered; and we are determined that the sick shall have them at a price within the means of the poorest (**25 cents a box or 30 Pills**) if your druggist or storekeeper has not got them, do not be put off by any others that may be offered in their place, but send to us direct, and we will forward by mail, on receipt of the price, 25 cents a box or five boxes for $1.

SKIN DISEASES.

Swayne's Ointment.

Is particularly adapted to all forms of skin diseases. Nurses everywhere and other remedies and treatment fail.

Cures Tetter,	Scald Head,
Salt Rheum,	Ringworm,
Barber's Itch,	Pimples, Sores,
Prarie Itch,	Army Itch,
Sore Heads,	Blotches, Scurvy,
Humors, Piles,	Chronic Erysipelas of the
All Eruptions,	face.

SWAYNE'S OINTMENT

Seems to cure every case, leaving the skin smooth and clear without a blemish behind.

Itching Piles

is generally preceded by a moisture, like perspiration, distressing itching, as though pin worms were crawling, in or about the rectum, particularly at night when undressing, or in bed after getting warm. It appears in summer as well as with or, oftentimes shows itself around the pri ate parts, and is confined to males only, but is quite as frequent that females are sore y afflicted, particularly in times of pregnancy, extending into the vagina, proving distressing almost beyond the powers of endurance. Cases of long standing, pronounced incurable, have been permanently cured by simply applying

SWAYNE'S OINTMENT.

EXTRACTS FROM LETTERS.

Dr. Swayne & Son:—Gentlemen—The box of Ointment you sent me by mail cured me entirely of Itching Piles, which I suffered with for five years. Enclosed find fifty cents for another box for a friend of mine. ANDREW J. BEACH.

Rev. Isaac Holland, Webster, Taylor county W. Va. writes:

November 20, 1875—I have been a sufferer from Itching Piles. I procured a box of your ointment last spring, which gave me instant relief, and feel confident it will effect a permanent cure. Enclosed find fifty cents, for which please send me another box by mail.

An Eruption of 8 Years Standing.

I was troubled with an eruption of eight years itching, intolerable at times; tried many preparations without finding relief. Through the use of Swayne's All-Healing Ointment I am entirely cured. JOSEPH LAMBERT.

Pullman Palace Cars

are run on all through trains of this road.

This is the ONLY LINE running these cars between Chicago and St. Paul, Chicago and Milwaukee, or Chicago and Winona.

At Omaha our sleepers connect with the overland sleepers on the Union Pacific Railroad for all points west of the Missouri river.

On the arrival of the trains from the east or south, the trains of the Chicago & North-Western Railway leave Chicago as follows:

FOR COUNCIL BLUFFS, OMAHA AND CALIFORNIA, Two through trains daily, with Pullman palace drawing room and sleeping cars through to Council Bluffs.

FOR ST. PAUL AND MINNEAPOLIS, two through trains daily, with Pullman palace cars attached to both trains.

FOR GREEN BAY AND LAKE SUPERIOR, two trains daily, with Pullman palace cars attached, and running through to Marquette.

FOR MILWAUKEE, four through trains daily, Pullman cars on night trains,
